

# AL-NASR MARBLE

## Al Nasr Marble for the Gangneung Skybay Gyeongpo Hotel Project, South Korea

**G**angneung Skybay Hotel Project is one of the iconic 5-star hotel base in Gangneung, along Gyeongpo Beach and rises up over 20 storeys and has 538 hotel rooms and suites with an amazing rooftop panoramic sea view and pool. It has been designed by well-known architectural firm **HBAA - Architecture Group**. It is located at the heart of **2018 Pyeongchang Winter Olympic site** and is just within a short stroll of Lake Gyeongpo and Gyeongpo Beach. **The North Korean contingent** stayed at this hotel during the **2018 Winter Olympics**. This property is in the midst of other indoor & outdoor Olympic centres, thereby making it a prime and accessible location for all people from all kinds of spheres of life.

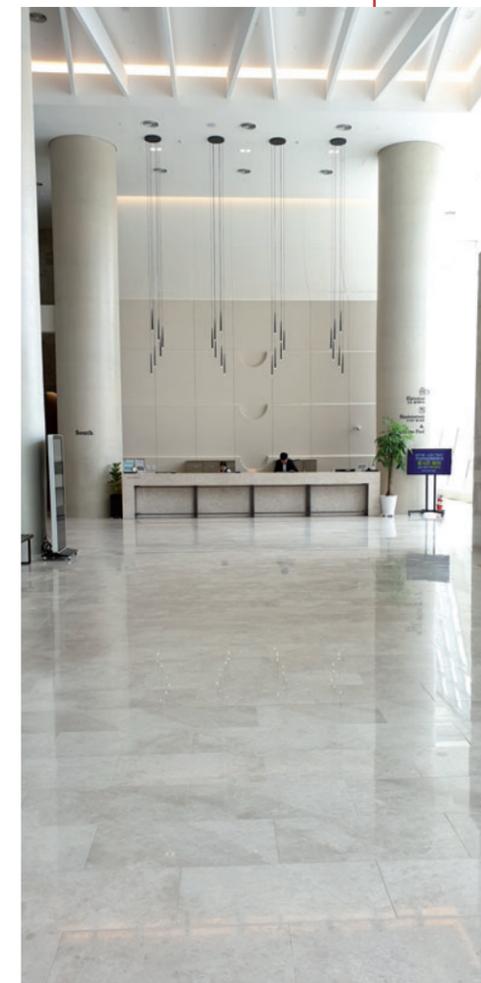

**Al Nasr** is very proud to have been associated with **HBAA - Architecture Group**. This firm aims to conserve the environment. Hence, it designs **environmentally conscious** buildings. They take into consideration the surrounding landmarks and the geography of the place and work on the design of the building accordingly. Hence, the boat shape structure of the Skybay Hotel to give the feel of a cruise in the sea of Japan which borders the hotel on one side.

Also, the design ensures that the hotel stays intact in any weather condition or change in earth's structure. This hotel was modeled after the **Marina Bay Sands** resort in **Singapore**.

This iconic 5-star hotel offers indoor/outdoor pools, fitness center and other top-of-the-line facilities. All rooms feature a terrace with either an ocean or lake view. Some rooms are equipped with a spa bath. Guests can enjoy Infiniti Pool and Restaurant Soiree on the 20th floor with ocean view. The nearest airport is Yangyang International Airport, about 40-minute drive from the property.

**Al Nasr** has collaborated with **ILSHINSTONE**, a leader in Natural Stone and leading group of companies in Korea. The collaboration dates back to 12 years. This project has seen **ILSHINSTONE** as a representative of **Al Nasr for Omani Marble**.

**Al Nasr Marble** is proud to have had the honour of supplying part of Marble in the details of approximately **25,000 m2 of Desert Mist** comprising of various sizes of 40\*80cm, 30\*60cm, 60\*60cm, 90\*60cm and other cut-to-sizes wherever necessary

that were used for the Lobby, Hallways, Rooms, Countertops in the Reception Area and the coffee-tables. This material was ready to be installed at site.

**Al Nasr** has grown into a top manufacturing professionally managed company, the factory of **250,000 Sqm** with Third Generation machinery producing Omani Marble Slabs & Tiles with number of quarries functioning. Al Nasr installed 25 Gang Saw lines for the production of Marble Slabs reaching its daily production capacity to **10,000 m2** & 65 Nos of Block cutters reaching its daily Tiles production capacity of **15,000 m2**. These machineries are all imported from Italy.

**Al Nasr** is really enthusiastic to have been chosen by a well known architectural firm **HBAA - Architecture Group**, as one of the marble supply company in this prestigious project, thus having the opportunity to place its elegant and refined materials in this sought contest. **Al Nasr** material "**Desert Mist**" is used for many big projects in South East Asia.
